Art Department Plans
Construct a temporary stage on wheels for a small crowd to stand on during the scene. Roll out red carpet from the stage. Bleachers will be placed behind the stage with a banner on the side of the building.

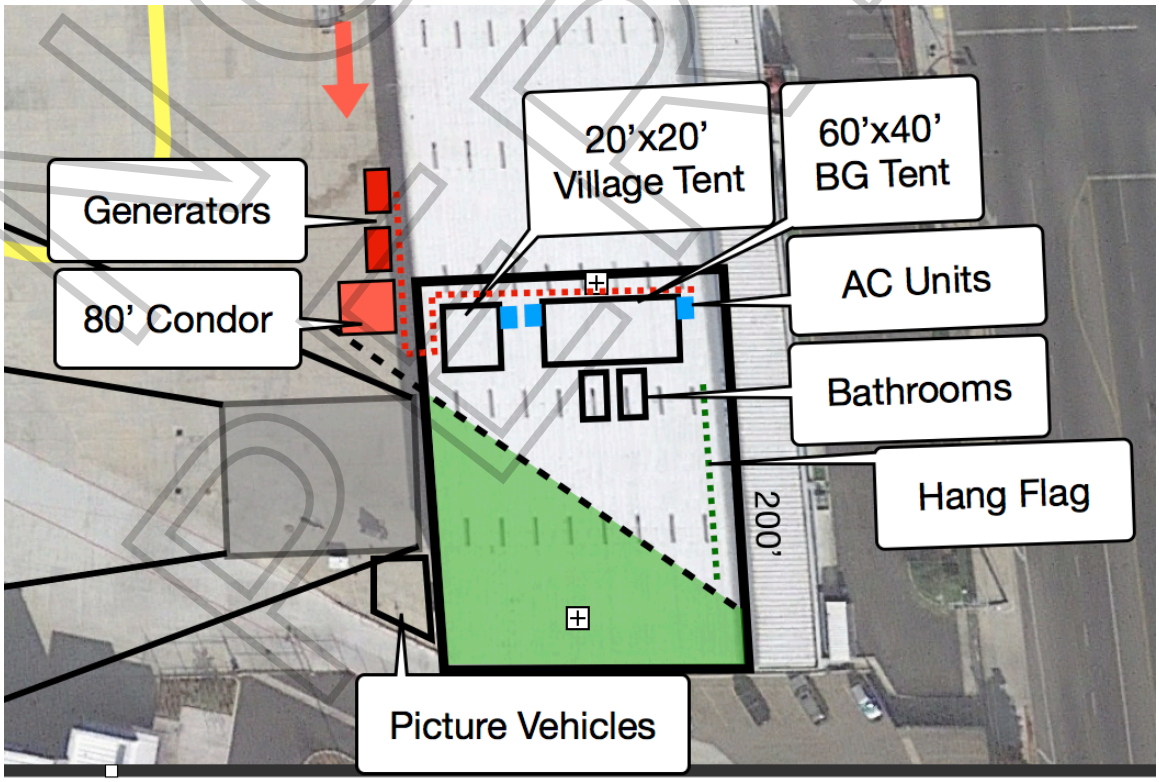
BG and Crew Holding
We will be providing popup tents inside the hangar rather than a lunchbox. We will be providing our own air conditioning to cool the tents. These AC units will be powered by the generator in the front parking lot. Our footprint inside the hangar will maintain a 10 foot fire lane around the interior of the building for safety and emergency access.

Special Equipment
We will be parking an 80' condor by the hangar door to provide diffusion for the set. This will be delivered on the prep day and picked up at the end of the shoot day. The condor will be at max 30' in the air, at any time it will not be in the air higher than the hangar roof. We will also be using an electric lift inside the hangar to secure a flag over the Sun Air flag. This will be removed at the end of filming.



FINAL

Restrooms
We will be providing all our own restrooms, we will be parking the bathroom trailers inside the hangar for ease of crew access and reduce the amount of people in the parking lot and near the Sun Air Offices.

Aircrafts
We will not be using an aircraft here.

Picture Vehicles
News van, cop cars and the presidential suburban waiting by the hangar.

Special Effects
We will not have any special effects for this scene.
